Special Notice

~~DE LA FOESSE PUBLIC LIBRARY~~

The Vernon Company has been publishing city directories for Ontario communities for more than eighty years, beginning with the Guelph directory in 1894. We have worked diligently to establish a reputation in the business community for reliability and honesty in our dealings. Our policy is not to ask for payment in advance, except in the case of new subscribers or telephone orders.

From time to time other firms appear on the scene selling listings, subscriptions and advertising space in directories of various kinds. Some of these are legitimate, but others, often securing advance payments, publish only a token directory or none at all. In addition, solicitation for directory listings, purposely designed to resemble invoices, are sometimes mailed to business firms and are passed for payment as the result of insufficient checking.

We urge our subscribers to take the following steps to protect themselves from fraudulent directory schemes:

1. Before signing a contract for directory service, listings, or advertising space, check the identity and reputation of the publisher; if in doubt, contact your local Chamber of Commerce or Better Business Bureau.
2. Be especially wary of contracts which require payment with the order.
3. Be sure to read the small print before approving an "invoice" which is really only a direct mail solicitation for directory which may never be published.

POSTAL CODE —

WHAT IS IT?

The postal CODE, composed of six characters, is a permanent part of your postal address. In urban areas, it contains enough information to determine the destination of a letter right down to one side of a city street between intersections, and sometimes even further.

The CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number. There is a space separating the first three characters, the Area Code, from the last three.

In urban areas, the Area Code describes an area roughly the size of 25 letter carrier routes. The last three characters denote a very small and easily-defined section within the area described by the Area Code. These characters can specify one side of a city block, an apartment building, an office building or a large firm or organization which does considerable business with the Post Office. They can also denote a service from a post office or postal station — rural route, general delivery.

In rural areas, the postal CODE indicates a specific post office.

The postal CODE will facilitate the sorting of mail, especially as mechanized sorting machines have become necessary to cope with growing mail volumes.

PREFACE

The Publishers, in presenting their 1982 Edition of the CITY OF PETERBOROUGH DIRECTORY, thank the people for the liberal support they have received.

Postal codes have been included in the street directory (pink section). They are prominently located after each street intersection description and shown in italics.

This year once again the names are listed in order of telephone numbers. This Numerical Telephone Directory is printed on blue paper and we feel that it will greatly increase the usefulness of the directory to our subscribers. Telephone numbers are also listed by house address in the Street Directory.

Our estimate of the population of Peterborough and outskirts is 65,000.

is a two-way street.

*Not only can you locate your clients,
they can also find you.*

ALPHABETICAL DIRECTORY

PETERBOROUGH 1982

EXPLANATION

1. The Christian name appearing alone in brackets is the name of spouse.
2. In some cases the designation, widow, has been omitted by request.
3. Names in bold print are those of firms which subscribe to or advertise in this City Directory. Names in capital letters are those of proprietors, partners or executives of these firms.
4. Business firms which are individual proprietorships or partnerships are indicated by listing the names of the owner or partners in brackets: Plaza Groceries (John B. Scott, Wm. Noble). Conversely, a firm name in brackets after an individual's name indicates that he is an owner or partner in the firm.
5. The householder or head of the house (owner or tenant) is indicated by h preceding the street address. Other members of the family, roomers and boarders do not have this designation. To determine whether the householder is owner or tenant, refer to the pink section, where home ownership is indicated by an asterisk (*).
6. The information in this directory has been gathered from original sources and the Publishers have made every effort to ensure completeness and accuracy. They cannot guarantee the complete absence of errors and assume no responsibility therefor. You are requested to draw any inaccuracies to the attention of the Publishers so that corrections may be made in the next edition.

Interruptions . . .

When you are exasperated by interruptions, try to remember that their very frequency may indicate the valuableness of your life. Only the people who are full of help and strength are burdened by other people's needs. The interruptions which you tolerate are the credentials of your indispensability. The greatest condemnation that anybody could incur — and it is a danger to guard against — is to be so independent, so unhelpful, that nobody ever interrupts you, and you are left comfortably alone.

Have a nice day!

NOTES

[illegible]

“YOUR AD”

WILL MAKE THE DIFFERENCE

A lawyer specializing in consumer causes for the state of Connecticut has asked the telephone company to scramble its Yellow Pages on the grounds that they're unfair.

He claims that the Yellow Pages mislead people. When they're looking for a plumber, say, they start with the A's, even though better plumbers may be buried in the H's or W's. This means that businesses and services at the beginning of the alphabet have an edge. In other words, the A's have it over all the rest.

The lawyer's remedy is to have the telephone company print half the subject listings in the Yellow Pages in alphabetical order and half in reverse alphabetical order. Half would start with A and half with Z. Either way, of course, the M's and N's would be stuck in the middle.

Is there any justice? Why not start the first business listing with the A's the second with the B's the third with the C's, and so on until every letter has a turn at the top?

Incidentally, the lawyer's name is Zitser.

THE PHONE

Most of us will spend two years of our lives on the telephone. They are not likely to be the best two years. Your phone rings. You pick it up, say *"hello,"* and a gruff voice barks, *"who's this?"*

You place a call.

Someone on the other end of the line answers, *"one moment please"* — and you sit there — three minutes before anything else happens.

You try to call Jones.

His office asks, *"May I tell him who's calling?"* before they'll admit he's in.

Another irritant: *"What is this in reference to?"* You might break that logjam by saying it's about his wife's gambling debts.

Maybe the all-time crusher, is when you answer your phone to be told Mr. Smith is calling and will be right with you. Then you sit there, seething, for another three minutes before Smith comes on. The telephone is one of life's miracles.

With a little thoughtfulness, we could make it one of life's blessings. Worth trying, isn't it?

The
Motor Hotel
 has the
BIGGEST
BEDBUGS
 in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

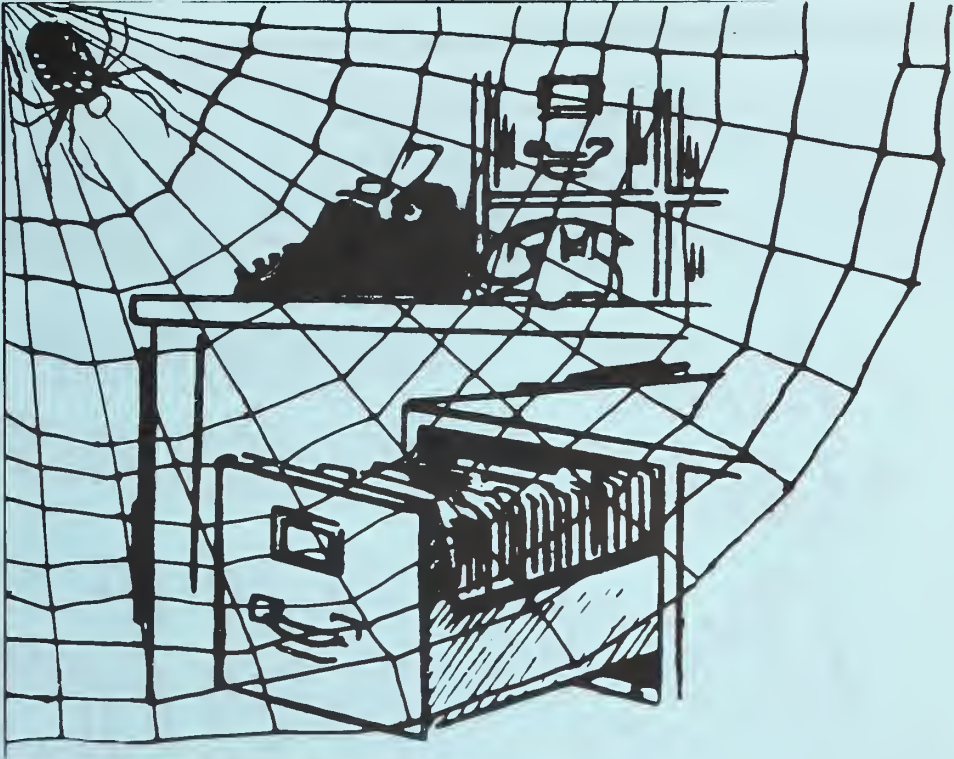

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

Advertising should be stopped —

When you expect to go out of business.
When there is nothing about your business that people ought to know.
When you don't want new customers.
When people never become dissatisfied with one firm and go to another.
When the public stops being born, stops dying, stops forgetting.

In other words when a firm is coasting it's generally going down hill.

“YOUR AD”

WILL MAKE THE DIFFERENCE

A lawyer specializing in consumer causes for the state of Connecticut has asked the telephone company to scramble its Yellow Pages on the grounds that they're unfair.

He claims that the Yellow Pages mislead people. When they're looking for a plumber, say, they start with the A's, even though better plumbers may be buried in the H's or W's. This means that businesses and services at the beginning of the alphabet have an edge. In other words, the A's have it over all the rest.

The lawyer's remedy is to have the telephone company print half the subject listings in the Yellow Pages in alphabetical order and half in reverse alphabetical order. Half would start with A and half with Z. Either way, of course, the M's and N's would be stuck in the middle.

Is there any justice? Why not start the first business listing with the A's the second with the B's the third with the C's, and so on until every letter has a turn at the top?

Incidentally, the lawyer's name is Zitser.
